

A decorative border of playing cards surrounds the text. The top and bottom borders are complete rows of 13 cards each, alternating between red and black suits. The left and right borders are vertical columns of 13 cards each, also alternating between red and black suits. The suits from top to bottom on the left and right are: Heart, Club, Diamond, Spade, Heart, Club, Diamond, Spade, Heart, Club, Diamond, Spade, Heart, Club, Diamond, Spade.

Gin - Amy

The Deal

Deal 10 cards to each player. Leave the deck in the center with the first card flipped up next to the pile. This is a two player card game.

Starting the Game

The player who did not deal starts. Each player gets the chance to pick up the first card. If the first player passes and the second player passes the first player pulls one card directly from the deck.

The Fundamental Rules

Players take turns pulling from either the top of the discard or from the draw pile. You then must discard one card at the end of your turn. You should always have ten cards in your hand at the end of your turn. Your goal is to get all cards in straight(of the same suit) or pairs of three or more. Any cards not in a straight or a pair of three are part of your garbage.

Ending the Game

When a player has a garbage with a value equal to or less than 10 then they can knock. Knocking means that all players put down their hands and count their garbage. You cannot knock before discarding, you must have 10 cards in your hand when you knock. The player with the higher value of their garbage loses and gains points from the value of the losing player's garbage minus the winning player's garbage. Face cards are worth 10 points each and all other cards are worth their face value with ace being low valuing 1. For example, if you knock with 3 in your garbage and the other player has 15, you gain 12 points. When a player knocks the opposing player cannot draw anymore cards but they can play off the knocking players straights and pairs.

Special Rules

1. **Gin** - If you have no garbage you have GIN! You gain 25 points along with whatever is in the opposing player's hand. The opposing player also does not have the opportunity to play cards on your pairs or straights.
2. **Undercut** - If a player knocks but the opposing player has equal to or less than the amount in their garbage then they undercut the dealer. They gain 10 points plus the difference in the garbage values. This applies if they have less after playing off the knockers pairs and straights.
